E 21 **Divisional Manager's Report**

Report 05.52

File: E/06/18/03

Members noted that Councillors Baber and Evans were potentially interested in attending the New Zealand Planning Institute Conference and will advise Councillor Turver within the next few days.

Resolved

(Cr Turver/Cr Shields)

(1) That the report be received and the contents noted.

(2) That Councillor attendance be decided at the New Zealand Planning Institute's 2005 Conference.

Councillors Baber and Evans said they would like to attend the Resource Management Law Association Conference in October.

Personnel Costs

Councillor McDavitt said there was a national shortage of persons qualified in the resource management area and said this seemed to be impacting on the Wellington region, and suggested that Dr Bradbury could investigate whether Greater Wellington could do more in the recruitment and retention areas.

E 22 Transit New Zealand – objection to consent conditions

Report 05.33

File: WGN/05/0079/1

Resolved

(Cr Buchanan/Cr Evans)

That the original wording of conditions 2, 3, 4, 6, 7 and 10 (a) with the wording below, as agreed to between GW and Transit:

“New condition 2 (as combined with the original condition 3)

“If material is dislodged, the consent holder shall adopt the best practicable option at all times to minimise the discharge of such material from the cleaning and maintenance operations. The best practicable option shall include:

- (a) collecting (sweeping up) of large particles such as blast debris, paint, rust, grime, loose bitumen particles to be disposed of at an approved waste disposal site/landfill;*
- (b) ensuring as many contaminants (washdown water, dilute cleaning detergent, paint flakes) as practicable enter the sewer system during cleaning and maintenance of the Mt Victoria tunnel; and*
- (c) ensuring as much detritus and water is removed from the surface as practicable during water cutting.”*

New condition 4

“All work areas and the surrounding area shall be cleaned of accumulations of any large particles of material (such as blast debris, paint, rust, grime, loose bitumen particles) at the end of each cleaning session and by the end of each working day. Any debris shall be disposed of at an appropriate facility. If debris is to be stored before removal from the cleaning and maintenance site, it shall be removed to a storage contained and covered. As far as practicable, no debris shall be swept into a watercourse.”

New condition 6

“The consent holder shall regularly inspect the equipment to ensure it is working efficiently so as to minimise as far as is practicable the level of contaminants in the washdown water being discharged.”

New condition 7

“The consent holder shall take all practicable steps to ensure that all operators undertaking the cleaning and maintaining understand and comply with these consent conditions prior to commencing any work and shall pass a copy of this consent to any operator or contractor implementing the activities authorised by this consent”

New condition 10 (a)

“(10) The cleaning and maintaining equipment and containment system shall be operated and maintained such that:

(a) fugitive discharge of contaminants to land from these systems are minimised as far as practicable.”
