The specific provisions of the Proposed Natural Resources Plan that this submission relates to are:

The specific provision of the Proposed Natural Resources Plan that my submission relates to is (please specify the provision/ section number): 181	My submission on this provision is: →	<input type="checkbox"/> I support the provision <input type="checkbox"/> I oppose the provision <input checked="" type="checkbox"/> I wish to have the specific provision amended
	Reasons for my submission: →	There are currently moorings placed around Wellington Harbour and adjacent to Mana Island that are not in the designated mooring areas, these are not for the permanent mooring of vessels but for occasional use. They are of benefit to us as they provide a secure mooring that vessels in trouble or distress can be directed too or placed on if we have multiple vessels to attend too. These are put in place and maintained by a variety of organisations, but often boating and yacht clubs. We understand that under the proposed changes to this plan the costs for the consents for these moorings will dramatically increase due to the need for public notification. We would prefer that the consents can be assessed on a case by case basis

		as to whether they may need public notification and that the clubs could spend their funds on maintenance rather than in fees for the consent, if indeed they would continue to keep these moorings. These moorings have not caused any issues in the past in terms of public access to the water and would arguably improve it..
	I seek the following decision from WRC (give precise details): ➔	We ask that the Public Notification requirement is removed from section 18.1 The decision as to whether it should be publically notified or not should be assessed on a case by case basis.
