

Proposed Plan Change 1

Paul Persico

persico@xtra.co.nz

I do not wish to be heard.

The National Government will repeal this NPS Fresh Water management plan.

Mangaroa and Akatarawa river contamination.

According to data there is no problem with contamination with either Mangaroa and Akatarawa river

PC1 will create a major problem and financial burden for lifestyle property owners, in Mangaroa and Akatarawa areas, and will achieve nothing, landowners can't fix a problem that doesn't exist.

PC1 will be a huge cost to rate payers, the money would be better of spent on finding the source of the problem and rectifying it.

Relief: WRC needs to stop wasting rate payers' money now.

I agree with the Maymorn Collective Submission in all aspects and to be considered as part of my own submission.
