

SAFER SCOOTING

top ten tips

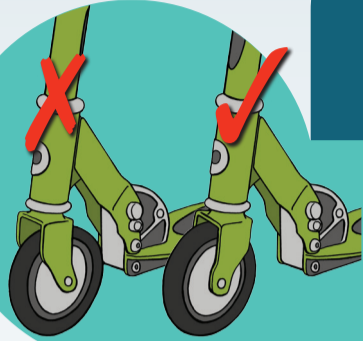

START SAFE

- Wear a helmet and covered shoes.
- Check your clamps are tight and your brake works.

START SAFE

- Make sure your front wheel is facing the right way.
- Your foot should be at the front of the deck.

SLOW SAFE

- Use your brake to slow down.
- Bend your knees and shift your weight over the back wheel.

STOP SAFE

- Practise the 'hop-stop' for quick stops – run beside your scooter while coming to a stop.

- Ride with an adult or friends.

SHARE SAFE

- Give other people lots of space.
- Slow down or walk when passing.

SHARE SAFE

- Use the kerb drill to cross – STOP, LOOK AND LISTEN!

CROSS SAFE

- Choose routes with safe places to cross.
- Walk your scooter across the road.

CROSS SAFE

RIDE SAFE

- Control your speed!
- Watch out for hazards like stones and bumps.

STAY SAFE

- Always stop and check for cars at sneaky driveways.
